The following are taken from ACLP's Diversity, Equity, and Inclusions definitions

Term	Definition/Description
Diversity	Diversity is the representation of all our varied individual and collective identities and differences. We proactively seek out and engage with a variety of perspectives because we believe we can only advance justice when we affirm our similarities and understand and find value in our differences.
Equity	Equity is fair treatment, equitable opportunities, and access to our information and resources for all. We recognize that we do not all start from the same place and must acknowledge and make adjustments to address these imbalances. We believe achieving equity is only possible in an environment built on respect and dignity.
Inclusion	Inclusion is an environment and culture of belonging that actively invites the contribution and participation of people of every race, identity, and community. We believe every person's voice adds value, and we strive to create balance in the face of power differences. We believe that no one person can or should be called upon to represent an entire community.
